# Abderrahmane KASSIMI

Junior DevOps – Windows/Linux Server Administration | Network/  
Cloud Management | IT Support  
Rabat, Rabat-Salé-Kénitra, Morocco

## Summary

With a comprehensive skillset encompassing programming languages, software development principles, information systems expertise, business management acumen, networking proficiency, administrative capabilities, and i bring a versatile approach to tackling complex technical challenges. My proficiency in programming languages like PL/SQL, C++, C, PHP, HTML, SQL, and scripting languages enhances my ability to craft sophisticated software solutions. Familiarity with software development methodologies like domain-driven design, responsive design principles, and website optimization ensures the creation of user-friendly and maintainable code. My understanding of business management principles equips me to navigate the business landscape and contribute to strategic decision-making. Expertise in Linux, setting up network infrastructures, and virtualized infrastructure management underscores my networking prowess, while proficiency in administering Windows, Linux, and cloud environments highlights my administrative capabilities. English and French allow me to communicate effectively with a diverse range of stakeholders. Furthermore, my problem-solving skills, automation expertise, firewall administration, technology monitoring acumen, security awareness, Microsoft Excel proficiency, and Microsoft Access skills complement my technical and business acumen.

---

## Experience

Agence du Bassin Hydraulique de l'Oum Er Rbia  
System Administrator  
April 2023 - April 2023 (1 month)  
Béni Mellal-Khénifra, Morocco

Worked with a team of a specialized network technician and 5 student developers on  
Resolve a critical issue: three hard drives configured in RAID 5 on HP ProLiant DL380 G7 Enterprise Primary Server were down

Impact: unable to save new data, no hard drives

backup available

Solution implemented: shutdown of the main server and commissioning of a backup server with old hardware

## Institut Spécialisé des Arts Traditionnels

### Network Maintenance

April 2023 - April 2023 (1 month)

Béni Mellal-Khénifra, Morocco

Installing printers on the local network

Allow access to ISAT users for printing

## Specialized Institute Of Applied Technology NTIC

### Administrative Assistant

July 2022 - September 2022 (3 months)

Beni Mellal, Béni Mellal-Khénifra, Morocco

As an Administrative Assistant intern at the Specialized Institute Of Applied Technology NTIC in Beni Mellal, Béni Mellal-Khénifra, Morocco, during a three-month period from July to September 2022, I played a pivotal role in handling various responsibilities on-site. This included efficiently processing registration requests, ensuring accurate data logging, updating files, and providing support to trainees. Throughout the internship, I enhanced my skills in office support, administrative assistance, effective communication, and proficiency in Microsoft Outlook and Excel.
